FOOD SAFETY ANALYSIS
2026 Proficiency Testing Schemes

TESTVERITAS

Highlights:

- Biogenic Amines in tuna
- Multi-mycotoxins in feed
- Multi-medical contaminants in feed
- Natamycin in hard cheese
- Lincomycin in muscle
- Levamisole in liver and muscle
- DNSH in muscle and shrimps
- Iodium and other metals in table salt
- Multi-metals in infant formula (powdered milk)
- Heavy metals in potato
- Alterotoxins in wheat
- Alterotoxins in tomato puree
- Pesticides in rice
- Pesticides in green coffee
- Characterized blank control material for sulphonamides and nitrofuran metabolites

2015-2025 Participating countries

Progetto Trieste
Laboratory Proficiency Testing for Food Safety Analysis

28 years of experiences
87 participating countries

List of *ENISO/IEC 17043:2024* accredited scopes available at www.accredia.it
(Cert. PTP N. 01176)

Details of accredited schemes available at www.testveritas.com

A better Proficiency Test approach

Test Veritas S.r.l. was created to satisfy the increasing international demand for services and products for the conformity assessment in the field of agri-food analysis.

For External Quality Control, Test Veritas offers to its customers the interlaboratory proficiency testing scheme **Progetto Trieste.**

The main features of Progetto Trieste are:

- Screening results are assessed by dedicated criteria
- Z-scores are not affected by screening results
- Test materials are mainly incurred
- Two samples with different concentrations are often provided

R-Apr = Round of April
R-May = Round of May
R-Sept = Round of September
R-Nov = Round of November

Due to the test materials features, the programme could have some modifications during the year.
The updated programme is available at www.testveritas.com

Progetto Trieste - Veterinary Drug Residues
2026 Programme

Those proficiency tests could distinguish between participations with confirmatory methods (e.g., HPLC, GC) or screening methods (ELISA, RIA, biosensors, microbial inhibition assays, lateral flow, etc...).

For participating with **confirmatory methods** the code is **A** and quantification is requested. Evaluation of performance will be in z-score terms (see Evaluation Criteria at www.testveritas.com).

For participating with **screening methods** the code is **B** and quantification is optional. Qualitative results will be assessed by dedicated criteria (see Evaluation Criteria at www.testveritas.com).

When the shipment includes 2 test materials, these are different so the laboratory will receive an evaluation for each test material.

ROUND of MARCH

Shipping date: March 16th 2026

Results submission deadline: April 20th 2026. For H5503 the deadline is April 13th 2026.

Final Report available: May 2026

Order deadline: January 31st 2026

(sub) Analysis intended to the homogeneity study have been subcontracted. Test Veritas is responsible of subcontracted activities.
(LIO) Lyophilized material. Quantity regards the final quantity after reconstitution. Instructions for reconstitution will be delivered with the test material.

TECHNICAL ASPECTS

Each test material may contain one or more substances from the table below. The proposed concentrations are indicative, especially for incurred matrix (naturally contaminated) with multiple contamination.

In case 2 test materials are provided, one could be blank.

It is not requested to research all the molecules of each group.

Milk test materials would contain preservative solutions.

Category	List of molecules	Indicative concentrations	
Chloramphenicol	chloramphenicol	< 2ppb	milk
Quinolones and Fluoroquinolones	ciprofloxacin - danofloxacin - enrofloxacin - flumequine - marbofloxacin - nalidixic acid - norfloxacin - oxolinic acid - sarafloxacin - difloxacin	< 150 ppb or blank	milk
Tetracyclines	chlortetracycline – oxytetracycline - tetracycline - doxycycline –epichlortetracycline - sum: chlortetracycline+epichlortetracycline - epioxytetracycline – sum: oxytetracycline+epioxytetracycline - epitetracycline - sum: tetracycline+epitetracycline	<200ppb or blank	milk
Anthelmintics	Avermectins: ivermectin - eprinomectin - abamectin - emamectin - doramectin - moxidectin Benzimidazoles: albendazole -albendazole sulfoxide - albendazole sulfone - flubendazole - febantel - fenbendazole - mebendazole - oxybendazole - thiabendazole. Salicylanilides: closantel, nitroxinil, rafoxanide. Imidazoles: levamisole. Presence of levamisole and one avermectine are guaranteed.	<200ppb	muscle
Chloramphenicol	chloramphenicol	< 2ppb	eggs
Chloramphenicol	chloramphenicol	< 2ppb	muscle
Sulphonamides	sulfadiazine - sulfadimethoxine - sulfadoxine - sulfaguanidine - sulfamerazine - sulfamethazine - sulfamethizole - sulfamethoxazole - sulfamethoxypyridazine - sulfamonomethoxine - sulfaquinoxaline - sulfathiazole	< 50 ppb	eggs
Nitrofuran metabolites	AOZ, AMOZ, SEM, AHD, DNSH All the molecules will be present.	<3ppb	muscle

B-lactams	Penicillins: penicillin V, penicillin G, amoxicillin, ampicillin, cloxacillin, oxacillin Cephalosporins: cefapirin, cefalexin, cefazolin, cefaclor, cefotaxime
Anthemintics	Avermectins: ivermectin, eprinomectin, abamectin, emamectin, doramectin, moxidectin Benzimidazoles: albendazole, flubendazole, febantel, fenbendazole, mebendazole, oxybendazole, thiabendazole Imidazoles: levamisole
Nitroimidazoles	dimetridazole, metronidazole, ipronidazole, ronidazole, 2-Hydroxy Dimetridazole (HMMNI), 2-Hydroxy Metronidazole, 2-Hydroxy Ipronidazole
Illegal Dyes	malachite green, leucomalachite green, crystal violet, leucocrystal violet, brilliant green

Due to the test materials features, the programme could have some modifications during the year.
The updated programme is available at www.testveritas.com

Progetto Trieste - Veterinary Drug Residues
2027 Programme

Those proficiency tests could distinguish between participations with confirmatory methods (e.g., HPLC, GC) or screening methods (ELISA, RIA, biosensors, microbial inhibition assays, lateral flow, etc...).

For participating with **confirmatory methods** the code is **A** and quantification is requested. Evaluation of performance will be in z-score terms (see Evaluation Criteria at www.testveritas.com).

For participating with **screening methods** the code is **B** and quantification is optional. Qualitative results will be assessed by dedicated criteria (see Evaluation Criteria at www.testveritas.com).

When the shipment includes 2 test materials, these are different so the laboratory will receive an evaluation for each test material.

ROUND of MARCH

Shipping date: March 16th 2026

Results submission deadline: April 20th 2026

Final Report available in: May 2026

Order deadline: January 31st 2026

Analytes	type of participation	Matrix	status	Code	Quantity	Euro
TVBN (sub)	-	tuna (LIO)	spiked and/or incurred	T5401A	A: 50g x 1	250,00 €

(sub) Analysis intended to the homogeneity study have been subcontracted. Test Veritas is responsible of subcontracted activities.
(LIO) Lyophilized material. Quantity regards the final quantity after reconstitution. Instructions for reconstitution will be delivered with the test material.

TECHNICAL ASPECTS

Each test material may contain one or more substances from the table below. The proposed concentrations are indicative, especially for incurred matrix (naturally contaminated) with multiple contamination.

In case 2 test materials are provided, one could be blank.

It is not requested to research all the molecules of each group.

Category	List of molecules	Indicative concentrations	
TVBN	total volatile basic nitrogen	< 400mg/100g	tuna

ROUND of SEPTEMBER

Shipping date: September 14th 2026

Results submission deadline: October 19th 2026

Final Report available in November 2026

Order deadline: August 1st 2026

Analytes	type of participation	Matrix	status	Code	Quantity	Euro

Histamine	histamine	High level: 60 ppm<x<350ppm Low level: 22ppm<x<60ppm	tuna
Biogenic Amines	cadaverine - putrescine - spermidine - spermine - tyramine	<500ppm	tuna

Progetto Trieste - Mycotoxins
2026 Programme

Those proficiency tests could distinguish between participations with confirmatory methods (e.g., HPLC, GC) or screening methods (ELISA, RIA, biosensors, microbial inhibition assays, lateral flow, etc...).

For participating with **confirmatory methods** the code is **A** and quantification is requested. Evaluation of performance will be in z-score terms (see Evaluation Criteria at www.testveritas.com).

For participating with **screening methods** the code is **B** and quantification is optional. Qualitative results will be assessed by dedicated criteria (see Evaluation Criteria at www.testveritas.com).

When the shipment includes 2 test materials, these are different so the laboratory will receive an evaluation for each test material.

ROUND of JUNE

Shipping date: June 15th 2026

Results submission deadline: July 20th 2026

TECHNICAL ASPECTS

Each test material may contain one or more substances from the table below. The proposed concentrations are indicative, especially for incurred matrix (naturally contaminated) with multiple contamination.

In case 2 test materials are provided, one could be blank. It is not requested to research all the molecules of each group.

Milk test materials would contain preservative solutions.

Progetto Trieste - Additives
2026 Programme

The quantification is requested. Evaluation will be in z-score terms. (see Evaluation Criteria at www.testveritas.com).

In each participation there are included the evaluations of 2 technicians.

ROUND of OCTOBER

Shipping date: October 19th 2026
Result submission deadline: November 16th 2026 for M6911, November 23rd 2026 for VF6910 and CE6701NA
Final Report available in January 2027
Order deadline: September 1st 2026

Analytes	Matrix	status	Code	Quantity	Euro
Sulphites (sub)	frankfurters (chicken/turckey)	spiked	M6911	35g x 1	265,00 €
Nitrates (sub)	spinach	spiked and/or incurred	VF6910	70g x 1	265,00 €
Natamycin (sub)	hard cheese (NOT slurry)	spiked	CE6701NA	55g x1	279,00 €
		CE6701NA code could be ordered in a affordable set together with PT for aflatoxin M1 in cheese (CE6701MA) (see in pag n. 21)			
Nitrites and nitrates (sub)	frankfurters	OCTOBER 2027			
Sulphites (sub)	shrimps (LIiO)	OCTOBER 2027			

(sub) Analysis intended to the homogeneity study have been subcontracted. Test Veritas is responsible of subcontracted activities.
Instructions for reconstitution will be delivered with the test material.

TECHNICAL ASPECTS

Each test material may contain one or more substances from the table below. The proposed concentrations are indicative, especially for

It is not requested to research all the molecules of each group.

Category	List of molecules	Indicative concentrations	
Sulphites	Sulphites SO2	< 800ppm	frankfurters
Nitrates	nitrate as sodium nitrate - ionic form (NO3-)	<4000ppm	vegetables
Natamycin	natamycin (pimaricin)	<10ppm	cheese

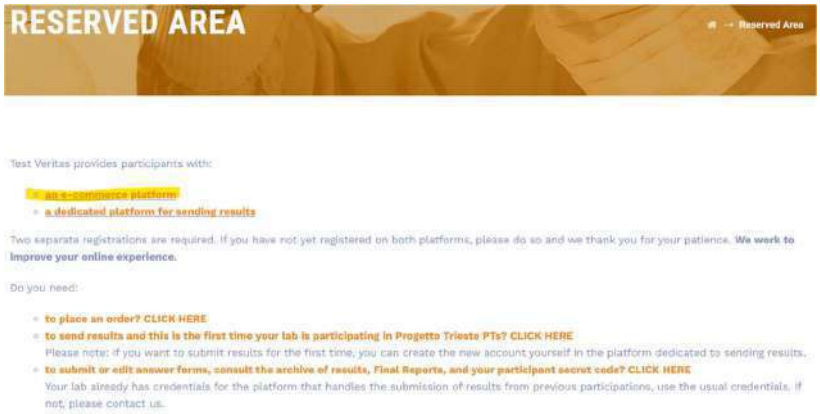

Progetto Trieste: how to order

To place your order online, you need to use your Test Veritas e-commerce account. In case you don't have one yet, follow these simple steps to create it – it's quick and easy!

CREATE YOUR ACCOUNT

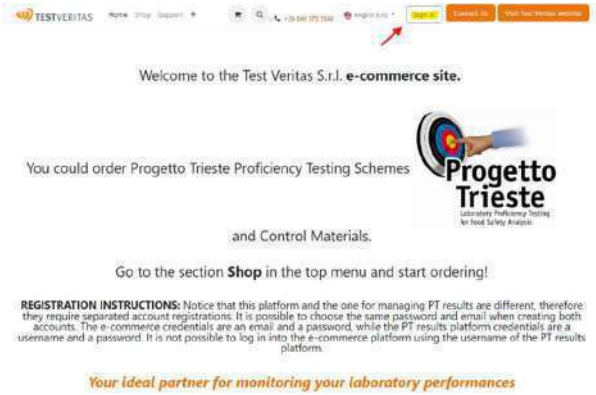

1. *Go to www.testveritas.com*

2. *Click on the top of the page on "PTS MEMBER AREA".*

3. *On the page called "reserved area" click on "place an order?" and you will be redirected to the new ecommerce.*

4. *On the next screen click on* ***Sign in –> Create new account*** *and register your information.* ***The registration you made in the past remains valid for the old platform that serves for the submission of PT results, you must repeat the operation also on the new e-commerce platform****. We suggest you to use the same e-mail and password. Once you have created your account go to the shop.*

5. *Here you will be able to select all the codes of your interest by putting them in the cart. For each PT you will also be asked to indicate the contact person and the e-mail address to which future communications regarding that code will be sent.*

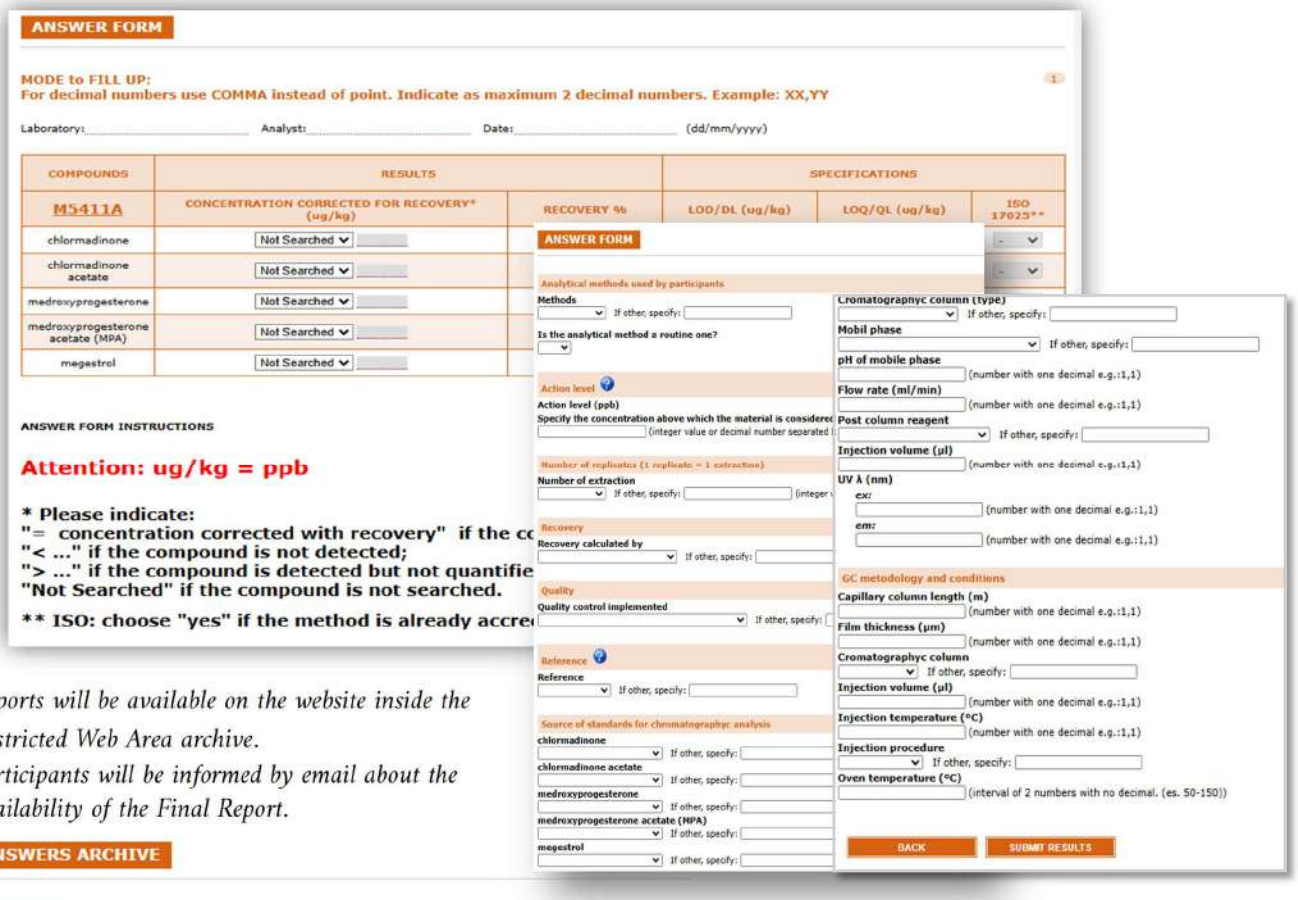

6. *When you have finished placing all the PTs you want to order in your cart click on the cart icon and you will be redirected to your order summary. Click on Check-out to enter information regarding shipping and any additional information (such as PO number if required).*

7. *On the last screen click on* ***"Pay now"*** *to complete your order. Don't worry you will not have to proceed with payment now, all payment details will be communicated to you later by our administration who will email you (orders@testveritas.com) the invoice/invoice proforma.*

Hard-copy reports are available for an additional charge. These are sent to participants by post.

CONFIDENTIALITY OF RESULTS

Only with specifical authorization from the participant, the Progetto Trieste Secretariat will disclose all or part of the results/evaluation to third parties. In exceptional circumstances, when a regulatory authority requires proficiency testing results to be directly provided to the authority by the proficiency testing provider, the affected participants shall be notified of this action in writing. The participants' list will be published in the Final Report.
The laboratory that participates to Progetto Trieste PTs undertakes to keep its result secret and to do not share it with other laboratories before the Final Report is issued.

CONTROL MATERIALS (AFTER PROFICIENCY TEST CONCLUSION)

At the end of the rounds, Test Materials are made available to the participants (until stock lasts) to carry out further investigations or to use them in the control charts of the analytical method. The test materials will be kept for 2 months.
Exceeded this time, where possible they will be accompanied by a datasheet which will establish the deadline.
The recordings of the tests carried out relating to the test materials will be available for 5 years.

Progetto Trieste: general conditions

TAX:
All prices are excluding VAT, where applicable, and shipment costs.
Certain countries apply withholding at source on the amount of invoices, in accordance with their internal legislation. Any withholding at source will be paid by the client to the tax authorities. Under no circumstances can Test Veritas become involved in costs related to a country's legislation

In the event that the Client utilizes the services of our authorized distributor for the importation of materials, the list prices indicated in the programme and in the online order form may not correspond to those applied by the local distributor. Additional costs such as logistics, import duties, customs fees, and management charges are not included in the listed prices.
The distributor will issue and send the Client a proforma invoice containing the final prices and applicable fees.

PRICE FOR ADDITIONAL MATERIALS:
In case the provided volume is not enough, it is possible to order additional materials.

- 120,00 *euro for codes containing 2 test materials*
- 90,00 *euro per codes containing 1 test material*

Laboratories that order additional material will receive double quantity of material.
Additional materials will be sold only in combination with Test Materials. They do not allow to take part into the PT. A maximum of one additional material can be ordered for each PT ordered. If you need to purchase more additional materials, please contact our support service at info@testveritas.com.

PRICE REDUCTIONS (*applicable only to orders placed on-line*):

- 5% *price reduction for ordering 6 or more Test Materials "A" or "B"*

SHIPPING COSTS (*Euro*):

- *INTRA EU*: 70,00
- *EUROPE not-EU*: 140,00
- *Shipping cost for other destinations will be quote on request*

INVOICING and PAYMENT CONDITIONS:
The performance assessment service will start from the on-line registration to the proficiency programme. For this reason, payment must be made before the shipment of materials. Online registration is required for the proper management of participation. For orders including only PT and placed before the deadline indicated in the commercial programme, no order confirmation will be sent.
The invoice will be issued after receipt of the online order, allowing sufficient time for prepayment.
Payment details and instructions (bank transfer) will be indicated on the invoice.
Note: No samples will be shipped in case of non-payment. In case the invoice is not paid before the test materials are send, the laboratory would be cancelled from the participants' list.

A fixed bank charge of 20,00 euro will be applied for the orders from all non-EU countries. The orders from non-EU countries would be paid against proforma-invoice; 35,00 euro for the certificate of origin can be charged.

CANCELLATION POLICIES
It is possible to cancel an order by sending an e-mail to orders@testveritas.com:

- *Cancellation of an order within 10 days of its receipt will not incur any penalty;*
- *Cancellation of an order after 10 days from its receipt, when the PT start date is scheduled 30 days or more in the future, will incur a cancellation penalty equal to 50% of the amount indicated in each order;*
- *Cancellation of an order after 10 days from its receipt, when the PT start date is scheduled in less than 30 days, will incur a cancellation penalty equal to 100% of the amount indicated in each order.*

If the client has made payment prior to the cancellation of an order, Test Veritas will refund the amount paid, subject to withholding the applicable cancellation penalty.

Progetto Trieste: general conditions

If the client does not cancel their order within 24 hours of receiving the invoice or proforma invoice, the invoice and proforma invoice shall be deemed accepted in all terms and conditions.
Test Veritas reserves the right to cancel or postpone, in whole or in part, orders due to force majeure events (e.g., work stoppages, theft, fire, equipment failures from any cause, etc.) occurring at our facilities or those of our suppliers and carriers. Such events release us from any obligations previously assumed upon order acceptance and exclude any claims for damages against us, whether direct or by written recourse for adjustment.
In the case of split deliveries, non-payment or late payment of only one of them entitles Test Veritas to terminate the contract or to make the performance of subsequent deliveries subject to advance payment of each of them.

OTHER INFORMATION
For all PTs, except those intended for screening methods, a maximum of 2 results may be submitted.
All PTs of Progetto Trieste include the possibility to submit 2 sets of results, both of which will be evaluated and included in the Final Report, with the purchase of a single participation. The two results must both come from confirmatory methods or both from screening methods, depending on the type of participation purchased
On the shipping date, Test Veritas will send the client a notification via email containing the shipment information. Under penalty of forfeiture of any rights or claims, the client is required to notify Test Veritas of any non-receipt of materials no later than 10 (ten) days from the shipment date. Such notification must be sent exclusively by email to info@testveritas.com.

SHIPMENTS
The goods are delivered from our warehouse and travel at the client's risk in accordance with applicable laws, even if shipped duty paid (porto franco). The shipping method is selected by Test Veritas based on convenience and suitability; carriers will be chosen among those contracted by our company.
It is the client's obligation to inspect the purchased products upon arrival and to report any package damage on the carrier's delivery note. Any claims for damage caused during transport must be submitted in writing to our office within 8 days from the delivery date, attaching a copy of the carrier's delivery note and any transport documentation. If such claims are objectively justified, Test Veritas will, at its sole discretion, either replace the goods or credit the amount corresponding to the purchase price, upon authorized return of the disputed items, excluding any further charges.
Claims do not authorize a reduction in price or withholding of payment. No returns will be accepted without explicit consent from Test Veritas. In the event of our acceptance for replacements or product exchanges, all transportation costs will be borne by our company.
Claims regarding invoices must be submitted in writing directly to Test Veritas, Trieste office, no later than 15 days from the date of receipt of the document.

JURISDICTION
For any dispute, the Court of Trieste shall have exclusive jurisdiction, to the exclusion of any other courts.
Every business relationship will be settled in Italian language. In the event of written communications in English, the only language accepted as an alternative to Italian, in case of any conflict in interpretation, the meaning of the Italian version shall prevail.
